

6 overlapping prints to form one large coloring page

Instructions:

1. Print the 6 coloring pages to "Actual Size". All 6 sheets should be printed to the edge of the sheet. Change your printer settings to "no margin" or "0" margins.
2. There are 5 sheets that are numbered and one that is not. Lay sheet 1 on a flat surface. Lay and overlap sheet 2 on top of sheet 1 so that the design lines up cleanly. Tape the two sheets together so that the tape stays clear of the drawing. Repeat this below in order.
3. Lay and overlap sheet 3 on top of sheet 2. Tape together.
4. Lay and overlap sheet 4 on top of sheet 1. Tape together.
5. Lay and overlap sheet 5 on top of sheets 4 and 2. Tape together.
6. Lay and overlap the final sheet on top of sheets 5 and 3. Tape together.
7. Carefully flip over the entire sheet and tape the seams.
8. Color and enjoy!
